

COVID-19 Update
!Active Outbreak!
October 23rd, 2020

Dear Residents, Families and Staff,

Our COVID Outbreak at Oak Hill continues. We tested all residents and staff again yesterday (10-15), and we just received the results. This round of testing resulted in three residents and three staff members being positive. These results continue to show a decline in our positivity rate and are showing measured progress through the current outbreak. We have had three more residents pass away from the virus this week.

Along with the reduction of positive test results, Oak Hill was able to close the second COVID Unit located on The Pines section of the facility. Oak Hill has "Graduated" (or transitioned) 17 more residents off the COVID Unit this week. This means that they have successfully navigated their illness and are no longer contagious. These residents have re-joined their peers in the main portion of the facility. We currently have 14 residents that are actively positive in the facility and are residing on our COVID Unit.

The overall numbers for the State of Illinois and the County of Monroe have shown a significant increase in COVID-19 cases. Please do your part to keep yourself, your loved ones and your community safe.

The safety and well-being of every resident at Oak Hill is our top priority. Thank you all, for your continued thoughts and prayers as we navigate this pandemic.

Please do not hesitate to call with any questions or concerns.

Sincerely,

Brian L. Koontz
