

COVID-19 Update
February 4, 2022

February 4, 2022

Dear Residents, Staff and Families,

I am happy to inform you that there have been no new positive cases of COVID in residents since January 17.

We have been testing all staff and residents twice a week. We only have two employees that have tested positive recently who are home isolating. There were no staff or residents that tested positive for COVID on February 3, 2022.

We continue to strive to follow all applicable guidelines set forth by IDPH and CMS to keep all residents, staff, and visitors at Oak Hill as safe as possible.

Thank you for your cooperation to help keep residents at Oak Hill as safe as possible.

Sincerely,

Kim Keckritz
Interim Executive Director
Oak Hill
